FREE CHILD CARE CAMP
Sakatpur Village, Gurgaon
Sunday, March 19, 2023

Due to the Covid Pandemic, we were not able to hold our yearly fee medical camp. The villagers in Sakatpur and neighboring villages were enquiring when we could have a camp arranged. This time, Managing Trustee was eager to hold a child care camp. He spoke to one of the best child specialists and pediatric Surgeon in Delhi, Dr. Thichen Kalden Lama who has more than 30 years' experience and we were fortunate that she could make herself available in spite of her busy schedule. Camp pamphlets were distributed 10 days in advance.

As per weather report, Sunday March 19th was to be a nice cloudy weather and we were hoping many will turn up to take this opportunity. As we reached the camp site in Sakatpur and getting ready for the camp, all of a sudden, it started raining. Taking the sudden rain as a good omen, we started the camp as a good number has already gathered and it was already passed 11 am, the scheduled time of the camp.

Doctor Thickchen was very good with children and she made them feel at ease. As per doctor's suggestion, we made medicine like antibiotic Syrup Amox Clave, Syrup Taxim-O, Syrup Metrogyl, Syrup Cetrizine, URI Permethrin lotion, Syrup Vitamin D3 5ml and syrup A-Z available for free distribution at the camp. The children seemed bit uncomfortable to be checked by a doctor but they left with a smile as the Managing Trustee, Lama Doboom Tulku send each of them off with a hand full of sweets.

All together the doctor saw a total of 35 patients, age ranging from 2 to 16. The camp ended around 3 pm. We then drove to nearby Golden Green Golf Course for lunch and drove back to Delhi.
